PANTRIES

A well organized pantry is a “must have” for the pampered chef, aspiring “foodie” or short-order cook with a growing family. As the kitchen is often the central meeting place in any house, proper organization is essential to prevent overcrowding and mess.

For the ultimate in pantry storage, the NEW 360 Organizer® Pantry can be used alone as a free standing model or built into your cabinetry. With a 27” footprint, it is smaller and narrower than the other 360 Organizer® models and fits very well into a small pantry closet. Like all 360 Organizers®, the unit spins smoothly and silently through manual rotation.

MUDROOMS & LAUNDRY ROOMS

White Laminate with Aspen Fronts and Traditional Base and Crown Moulding

People and families with busy lives need an easy storage solution for jackets, shoes, book bags, sports equipment, accessories and more.

A well organized mudroom allows you to keep everything in one place, where it is easily accessible and out of the way.

Laundry is a chore that everyone must do, yet rarely do we think about how to make this task easier or more enjoyable. Transform wasted space into a new laundry room or modify your existing space with a custom design to maximize laundry storage and functionality — even dirty clothes need a place to go.

WALL BEDS

Do you have limited space, but need both a guest bedroom that can accommodate family or friends during the holidays, plus a home office or living space for yourself the rest of the year? Both of these needs can be satisfied with a single room when a wall bed is designed into the solution. Whether you are looking to get the most out of a small square footage apartment or creating a flexible area in a house, a wall bed is a great way to make your space do double duty.

GARAGES

Garages get messy quickly with overflow from the rest of the house. Garage organization systems can not only clean up the area, but allow you much more storage space. Turn a “cave” into a place of comfort where everything has its place. Once we’re done you might even find room for your car.

Solid wood doors, drawer faces and mouldings feature the natural beauty of real woods. Part of the beauty comes from the irregularities in color and grain. Thus, variations among component parts are to be expected. Wood finishes are fragile and require the same care as any wood furniture.

DRAWERS

Drawer boxes are constructed with high quality Russian Baltic Birch, using dovetail joints for strength.

Drawer hardware is undermount, nearly invisible from the front or sides for a clean look, and includes soft close feature with hydraulic dampner allowing drawers to close smoothly and quietly. They have a 75 pound dynamic load rating and are easy to remove and re-install for cleaning.

OPTIONAL FINISHING TOUCHES

The devil is in the details. Attention to the little things delivers a storage system that will serve you with beauty as well as functionality for years to come. These are a few optional finishing touches that ensure a flawless system.

Moulding:

Every home is unique and contains imperfections that need to be addressed prior to installation. We recommend applying base and crown moulding during installation where walls, ceilings and floors might not be straight.

Fully Bored vs. Selective Drilling:

You have the option of ordering your system fully bored or drilled selectively. With fully bored panels all shelves are adjustable whenever the customer wants a change. With selective drilling, there are fewer holes, but panels shelves are set in place and not easily movable.
